

Corsair

Kentucky Bluegrass

Corsair Kentucky Bluegrass has incorporated the best traits of its parentage Wildwood Kentucky bluegrass, Baron Kentucky bluegrass, and Shamrock Kentucky bluegrass. This unique combination sets it apart from the competition and ideally suits **Corsair** as an excellent addition to your Kentucky bluegrass product line-up.

Corsair has exhibited high resistance to rust and powdery mildew. It also provides a dark green color with an early spring green-up, fine leaf texture, and excellent density year-round during the growing season. This grass is ideally suited for home lawns, commercial properties, parks, sod production, golf course roughs, and sports fields.

Seeding Rate

New Lawn: 2-4 lbs. per 1,000 sq. feet

Established Lawn: 1-3 lbs. per 1,000 sq. feet
